

## WRITTEN DISCLOSURE STATEMENT INFORMATION SHEET

The Seller/Owner shall complete the Written Disclosure Statement and shall in good faith provide accurate information regarding the condition of the animal. The objective to the disclosure requirement is to enable potential buyers to make an informed judgment regarding the horse prior to exercising their right to bid on such animal.

Seller/owner has the affirmative duty to disclose with particularity any of the following specified conditions of the horse, if known to exist:

- a) Vices: cribbing, windsucking or weaving;
- b) Unsoundness: chronic lameness or impairment of natural gait regardless of cause, including osteoarthritis of a joint, OCD, bone abnormality, navicular disease, or ringbone; nerving; wobbler; Equine Protozoal Myeloencephalitis (EPM); blindness or functionally impaired vision; laminitis; chronic bleeding; parrot mouth; cryptorchid, or winded condition. For breeding stock, seller/owner shall additionally disclose, if known to exist, the following: as to stallion, infertility or permanent incapacity to breed, and as to a broodmare, infertility or other condition which prevents the broodmare from carrying or delivering a viable foal through normal gestation.

Unless disclosed by seller/owner the horse must be sold drug free. Any foreign or controlled substance administered to the horse must be disclosed regardless of therapeutic benefit or purpose, including but not limited to, bute, regumate, or acetazolamide.

**It is imperative that you complete each line above. If no information applies, simply put "-----n/a-----" or "-----unknown-----". No line may be left blank.**
